ELTERNINITIATIVE
LA VIDA

An Early Intervention Centre offering services for:

children with sight disorders

children needing general early support

families needing parenting relief

Who we are?

We are a team of early childhood intervention professionals holding additional qualifications in training visually impaired or blind children (from birth to school age). We also offer competent family support services.

What we do ?

- We work with your child on a well-directed and comprehensive basis either at your home or at our Early Intervention Centre.
- We offer information and parenting assistance to families as well as.
- Interdisciplinary cooperation

„Reaching goals always means going ways together“

An Early Intervention Centre offering services for children with sight disorders and children needing general early support

For your child:

- Development of all senses (sight, hearing, taste, smell, touch)
- Special training of visual perception or improvement of existing visual abilities
- Mobility and orientation instruction
- Self-help training for maximum independence
- Preparation for nursery school and/or elementary school

For You:

Information and counselling services for parents relating to

- Therapeutic education
- Improving the pedagogical environment of your child
- Knowledge of educational play and choice of toys
- Keeping contact with other parents concerned through our association
- Guidance and support for parents in special educational situations

Families needing parenting relief (FED)

What is it ?

- FED is a public service according to the Styrian Rights Law provided for disabled persons aged 0 to 61 years.
- FED offers guidance, training and care.
- FED offers support for parents and relatives.
- FED can be demanded on an hourly or daily basis.
- Our goal is to enable our clients to live in their habitual environment as independently as possible.

„We accompany you and your child“
